Chain of Circumstances Plus Chain Reaction Equalled Death

As he had done hundreds of times prior to the afternoon of Dec. 30, 1958, Cecil Kelley pressed a button on top of a 225-gallon steel tank to agitate a solution of plutonium containing material.

The plutonium floated harmlessly on the water—but the water itself contained a small amount of fissionable material.

Agitation changed the shape of the solution, plutonium in the water added to it and a chain reaction began.

2 1/2 change

Water forced up walls of tank cause solution to bulge

4

All Kelley knew was a sudden blue flash and a muffled explosion from the now 'critical' mass of plutonium. In an instant his body absorbed 12,000 roentgens of radiation—300 times the fatal dosage. He died 35 hours later.

Porker Status Cleared for Bowl Games

LITTLE ROCK (AP)—A "misunderstanding" regarding the University of Arkansas Razorbacks' status with the Aluminum Bowl football game was clarified yesterday in a statement by bowl officials.

"It is regretted that the impression was given that the Razorbacks have already been selected, or that they are committed to participate," the statement said.

An earlier report said the Porkers would be invited to play in the Dec. 26 game if they failed to qualify for the Cotton Bowl in Dallas.

"Although it is hoped the University of Arkansas can be the host team, it is far from being a certainty," the statement said. It added that the Hogs would have to earn an invitation "by proving themselves during regular season play" and for the team to "wholeheartedly want to play in the game."

Officials of the Aluminum Bowl Assn. met with representatives of various Arkansas industries Monday to discuss plans for promotion of the 1959 contest.

Lee Harvill of Little Rock, association president, said a sellout of 40,000 tickets plus possible television receipts would mean a total of \$241,000 at War Memorial Stadium here, site of the game.

The Aluminum Bowl was not played last year.

THE NIGHTSHIRT LINCOLN—This new painting of Abraham Lincoln shows the 16th president in his nightshirt. He's depicted preparing an early draft of the Emancipation Proclamation in the Anderson Summer Cottage, Soldiers Home, Washington, D.C., in September of 1862. The work by New York artist Jos Schickler was unveiled by the Lincoln Sesquicentennial Commission in Washington. American flag drapes it at lower right.

Famed British Dancer Held in Panama

By LUIS NOLI

PANAMA (AP)—The Panamanian government held British ballerina Margot Fonteyn under arrest today in connection with charges that her husband was plotting to overthrow President Ernesto de la Guardia Jr.

The 34-year-old ballet dancer, one of the world's greatest, was reported being held in the private office of the commandant of Panama city's main jail.

National Guard headquarters claimed that Miss Fonteyn's Panamanian husband, Roberto Arias, had landed Sunday night on Panama's Pacific Coast with about 10 armed men.

The National Guard, which is Panama's army and police, said Arias and his band were fleeing. Other reports said he had transferred from the motor launch in which he and his wife had been cruising and had landed near his family's large cattle ranch 75 miles west of the capital.

There was no immediate official reaction from the British Embassy, which had been busy until late Monday with the visit of Prince Philip, Miss Fonteyn's more than a decade has been the top star of Britain's Royal Ballet, a reaction from the British Empire, the female equivalent of knighted.

Dame Margot had been in Panama for several months with her husband, Panama's former ambassador to Britain. The couple had been cruising aboard the fishing launch Nola in the gulf of Panama since last Tuesday.

Over the weekend Do la Guardia's government had ordered the arrest of her husband.

Arias, son of former President Harimodio Arias, was charged with trying to organize an attack on the National Guard garrison in Chorrera, about 20 miles outside the capital.

His wife sailed into Balboa undetected before dawn Monday aboard the Nola. Newsmen were unable to locate her, but it was known she spent some time at her father-in-law's home.

National Guard officials refused to say when or where she was arrested.

The dancer and her husband have been a popular twosome in diplomatic circles in Europe since their marriage in 1935. Dame Margot was due to dance again in Covent Garden June 2 with the Royal Ballet.

New Violence

Continued From Page One

Union members, he charged "radiated" by their actions. They don't seem to have any sense of responsibility for their own commitments.

Cooper added that Monday night's incidents would not discourage him from continuing a second shift. "If I shut one down, he said, 'I will shut them all down, and I won't open them up anymore."

"The strike is off but it is not dead," said Boyd Patton of Charlotte, regional director for the union.

Police Take Over Klan Signs

LITTLE ROCK (AP)—Recruiting signs for the Ku Klux Klan were found tucked to a number of trees and utility poles yesterday.

It could not be determined who posted them.

"Be a real citizen" the cards read. "Renew your driver's license. Pay your poll tax. Join the U. S. Klan. Knights of the Ku Klux Klan, Inc. a chartered organization. Ask next man you meet or write Box 1241, Little Rock."

Postal authorities said they could not reveal the identity of the sender of the post office box.

Spokesmen for several segregationist organization said they knew nothing of the cards. Police Chief Eugene Smith ordered them removed because a city ordinance was violated when they were placed on public property. Smith pointed out this would have been done in the case of any posters.

Gov. Orval E. Faubus said he was not aware of the incident. He said he was against secret organization.

Various attempts to reorganize the Klan in this area have been reported since it faded after its heyday in the early 1920s. There have been several since the school integration controversy here.

Proclamation

The greatest heritage of American citizenship is a system of government under laws devised by elected representatives for the people for their protection, and administration by courts in which every citizen enjoys equal standing.

Adherence to the rule of law has enabled the nation to grow and prosper. It also has been a vital element in our own community life. The whole structure of our business, religious, social and cultural life rests upon laws. Every citizen is dependent upon them in his daily affairs and for the protection of his person and property.

In our reliance upon the rule of law in our daily affairs we may at times take for granted the benefits we derive from it. It is appropriate, therefore, that the President of the United States has proclaimed a day for national recognition of the importance of law in American life, and of its effects upon the well-being and happiness of each citizen.

The observance, known as LAW DAY U. S. A., will take place on May 1, 1959. In countries under communist rule the same date has been a time for demonstrations of the military force, upon which communism relies to maintain its political domination over the people. No better time could be chosen to call public attention to the contrast between government under law in the United States and government by force behind the Iron Curtain.

NOW, therefore, I, George Frazier, Mayor of the City of Hope, Arkansas, do hereby proclaim Friday, May 1, 1959, as LAW DAY U. S. A. in Hope, Arkansas, and call upon all citizens, organizations, and schools to join in this observance emphasizing good citizenship and respect for law.

George Frazier
Mayor

Boy's School Pay Probe to Continue

LITTLE ROCK (AP)—A special legislative audit which questioned the handling of payroll warrants at the Negro Boys Industrial school will be turned over to Pulaski Prosecutor J. Frank Holt, Gov. Orval E. Faubus said yesterday.

The audit, directed by the Legislative Joint Auditing Committee, concerned payroll administration by ex-superintendent L.R. Gaines.

Gaines was fired after a March 5 dormitory fire which killed 21 inmates of the "Wrightsville" school.

Audit Committee members voted to send the findings to Faubus. The governor said he had not studied it thoroughly.

The audit cited "a variety of handwriting styles" on pay warrants issued to two employees, and said Gaines had been second endorser on others.

Gaines told auditors his endorsement was on the warrants because he frequently cashed them for employees.

On another matter, Faubus said a public poll he had ordered in regard to a highway bond issue revealed "the people will vote for it if they are convinced the funds are needed."

Faubus said the poll was made after the Legislature adjourned March 12. The General Assembly adopted a bill calling for a 21 million dollar highway bond issue subject to the governor's setting a special statewide election.

Faubus, who had said he would

Cubans Welcome Home Their Leader

NEW YORK (AP)—A crowd of about 20,000 persons roared a wild welcome today in Cuban Premier Fidel Castro on his first visit to the New York.

About 1,200 cheering, flag waving admirers greeted him in Pennsylvania Station.

The other surge about as he made his way by automobile from the station to the nearby Statler Hotel.

Asst. Chief Police Inspector James W. Nidas estimated 20,000 through at 20,000.

Police kept the crowd in the station behind barricades, but the revolutionary leader refused to immediately through a cleared path to a waiting automobile.

"I want to see the people," he said.

Many in the crowd of about 17,200 men and women held Cuban flags and shouted greetings in Spanish.

"Viva" was their word to welcome Castro. They cheered almost continuously.

Castro had visited overnight in Princeton, N. J. He is scheduled to spend five days here before going on to Boston.

Russia Warns Norway About NATO Dumps

MOSCOW (AP)—Russia has warned Norway her decision to build new NATO munitions dumps and bomber bases on Norwegian soil is not in the clear interests of peace.

Soviet Foreign Minister Andrei Gromyko handed the Soviet protest note to Ambassador E. H. Gundersen. It complained particularly against the building of dumps for joint use with West Germany.

The Soviet note warned that it did not help matters for Norway to prepare a bridgehead for West German forces.

Group Split on Revising Statutes

LITTLE ROCK (AP)—The House Journal Committee split 3 to 2 yesterday in holding that a 1958 act appropriating \$97,000 for revised Arkansas statutes got 60 enough votes to pass.

The bill in question originated in the Senate. It was drawn to pay for 5,000 two-volume sets of the statutes, revised to include this year's laws. Public officials get free sets.

The House committee minority said the bill lacked one vote of the 75 necessary for passage in the lower chamber, but the majority disagreed. The majority said the journal had omitted Speaker E. C. Fleeman's vote for the bill. Fleeman signed a sworn statement saying he had cast a voice vote for the bill.

The committee members filed majority and minority reports after checking the House Journal is part of clearing up final details of the 1959 legislative session.

The act, which was approved by Gov. Orval E. Faubus, is law in the absence of a possible successful court attack on it.

The committee majority was composed of Reps. Robert J. of Hempstead, A.M. Ledbetter, J. of Paulkner and W. D. Baker of Newton. The minority consisted of Reps. Joel V. Ledbetter and Gayle Windsor Jr., both of Pulaski.

Kaline Off to Best Start in Four Seasons

DETROIT (AP)—Al Kaline is off to his best batting start in four seasons, and he thinks he can keep up the good work.

It has been suggested by the Detroit Tiger front office that a good start by Kaline would assure a fast start by the club. The 24-year-old right fielder, who won the American League batting crown in 1955 before he reached his 20th birthday, has disproved that theory.

"The Tigers have lost six of their first seven games but Kaline is hitting .407 on 14 hits in 30 trips. A notoriously slow starter, Kaline has hit well in the spring only once before when he captured the crown with a .340 average in his second full year in the league.

Kaline's average dropped to .314 the year after he won the title then to .285 the following season. Last year he batted .313 but his home run and RBI mark were down again.

"Now I'm trying not to swing so hard," he said Monday.

"People try to be nice when a guy is in a slump, and you get all sorts of advice and suggestions. But I think I've been trying to take everyone's advice and consequently I've been a pretty mixed bag. If I keep my eyes open and my ears closed, I can have a pretty good year."

Fishing Around Arkansas Lakes

LITTLE ROCK (AP)—Here is a fishing forecast from the Arkansas Game and Fish Commission:

Lake Hamilton: Crappie fair to good. Bream fair to medium on artificial bait and fair to good on worms.

Lake Greason: Water clear and rising slowly. Black bass fair on minnows and artificial bait. Crappie fair on minnows.

Lake Conway: Bream fair to good on crickets. Water clearing and normal.

Lake Norfolk: Black bass fair on artificial bait and live minnows.

Bull Shoals Lake: Bass fair to good on live bait and artificial bait. Crappie fair to good on live bait.

Lake Catherine: No report.

Across The Counter

Fred O. Ellis

Most of our customers and friends have heard about the change in the Arkansas Motor Vehicle Safety Responsibility Act that was passed by the last session of the legislature and goes into effect on June 11th. This law states that if you are involved in an accident that amounts to bodily injury or property damage in excess of \$100.00 that you may have to show proof of financial responsibility up to \$25,000.00. The easiest way to meet this requirement is to carry Automobile Liability Insurance. In the amount of \$10,000.00/20,000.00 bodily injury and \$5,000.00 property damage.

In our continuing endeavor to be of service to our customers and the community, as we have for the past 35 years, we are again in the process of increasing all of our insured customers' policies to comply with the new law.

All the policies that come up for renewal in May and before June 11th will be increased when they are renewed. All other policies will have an endorsement issued and sent to our customers. Contrary to the impression that some people have, the increase in the premium will not be very expensive in most cases.

It will take some time to get all the paper work done that is necessary, but all our customers can be assured that their policies will meet the standards when the law becomes effective. If you do not carry your insurance with us, let us provide you with the same service that we give our present customers.

Dodgers Now in 2nd, Appear to Be in Business

By ED WILKS

Associated Press Sports Writer

For the first time since they blew out of Brooklyn, the Dodgers are sitting second in the National League.

They got there the way they used to do business: winning with the big pitcher and the big home run. Monday night, as Charlie Neal's leadoff shot in the ninth made Don Drysdale's three-hit, 11 strikeout job good for a 2-1 victory at the Coliseum over the San Francisco Giants and Sad Sam Jones.

Drysdale, 22, called it his best game ever after collecting a 2-1 record and running up a string of 18 innings in which he has allowed but one run.

"The Dodgers, who finished sev-

enth last year, never were higher than third in that inaugural season at Los Angeles. Fact is, they haven't been as high as second since Aug. 31, 1957.

At the moment, the Dodgers are just percentage points (.133) behind Milwaukee's front-running Braves, who were idle. The Giants slipped to third, a half-game back.

Only two other games were scheduled in the majors Monday, and both were rained out. In the National, Pittsburgh had a 1-0 first-inning lead over Philadelphia before calling it quits. In the American League, New York's game at Boston didn't even get started.

Drysdale, who now leads the majors with 25 strikeouts and has won four straight from the Giants since Aug. 8, was touched for Willie Mays' first homer of the season with two out in the first. Then he put down 21 in order before Andre Rodgers singled with two out in the eighth.

The young and lanky right-hander's lone moment of worry came in the ninth. With two out, Jackie Brandt beat out a roller, and Mays, just missing another

homer with a foul ball sliced to right, drew Drysdale's only base on balls. The Dodgers then put it away after Orlando Cepeda banged into a force out for his first hitless game of the season.

Sad Sam (1-2) lost his second in a row, giving up six hits, walking five and striking out two. The Dodgers got the tying run home in the second on a walk, sacrifice and singles by Norm Larker and Don Zimmer. Jones then blanked the Dodgers on three hits until Neal rapped his first 1959 home run, into the left-center field seats.

Calendar of Events

Tuesday, April 21

Everyone is invited to come to Yerger Gym, tonight (Tuesday) at 7:30 p.m. to hear a panel discussion on "The Evils of Alcohol" by students from Blevins, Clow, Washington, Columbus and Yerger High Schools. An interesting film will be shown entitled "For Ever Along". Music will be furnished by chorus from the participating schools.

The officers and members of Munn Chapel Baptist Church in Prescott, will celebrate the Seventh anniversary of their pastor, Rev. P. R. Williams with a series of services beginning Monday at 7:30 p.m.

Tuesday night, Junior Church and Usher Board sponsors, Guest churches: Greenville, St. Thomas, Stamps, and Ward Chapel. Sermon, Rev. Dr. D. Stafford.

Thursday, April 23

The Junior class of Yerger High School is making final preparations for the presentation of "Aunt Susie Shoots the Works" — a 3-Act Mystery Fance, in Harris Gym. on Thursday, April 23 at 8 p.m. The cast includes Doris Jean Woods, Shirley Yvonne Hicks, Hattie Ann Pickens, Bertha Powell, Joyce Strouther, Grace Lee Harris, Alice Faye Easter, Robert Poindester, Roosevelt Jamison, Frank Turner and William Ware. Admission is 15, 25 and 35 cents.

A special call meeting of the Negro Civic Improvement Association will be held Thursday night, April 23 at 7:30 p.m. in the Hicks Funeral Home building.

As was stated in the president, H. L. Washington's inaugural address two weeks ago: "I plan, with the help of the people, for this organization to function through the committees." Therefore, the primary purpose of this meeting is to appoint committees to execute plans as may be directed to it.

Every civic minded person is needed and urged to attend this special meeting.

On Thursday, April 23 an Electrical Workshop will be held in the WOW Hall, located across from Hope City Hall, beginning at 9:30 a.m. and will last until around noon. Representatives of Arkansas Power and Light Company will be in charge.

Various demonstrations will be given, using the latest electrical appliances in and around the home.

This is the first time a work shop of this kind has been held in Hope and was planned to give all homemakers a better insight on the care and use of electrical appliances.

Miss E. L. Ford, Assistant, HD Agent for Negro Work, urges every one to attend.

Student Council News

The students have recently completed their election of council officers for the 1959-60 term. Students receiving the highest number of votes were:

President, Vera Williams; Vice President, Douglas Williamson; Secretary, Alma Dennis; Assistant Secretary, Ruby Charles Terry and Treasurer, Odell Maxwell.

These students will take their oath of office soon and will begin their official council duties in September.

Yerger Student Council

Receives State Honors

Four Council members from the Yerger Student Council and one sponsor, Mrs. M. Z. Glen attended the Arkansas State Student Council meeting, held at the Baptist Hotel in Hot Springs.

Attending the meeting were Vera Williams who was elected State Vice President of the ASSC and will attend the national council meeting in Pittsburgh, Pa. in June Charles Moses Maryana Rutherford and Carolita Grigsby.

The Yerger Council received third place for Student Council Activities.

There were 30 schools represented at the meeting, the meeting was educational and enjoyable.

Space Flight Forecasts Are Popping Out

By GEORGE GOULD

WASHINGTON (AP)—Space flight forecasts are popping out all over Washington—everything from sending mice into orbit within a month to sending a man to the moon and back within eight years.

The mice-in-space forecast came Monday from Roy W. Johnson, director of the Advanced Research Projects Agency, in a speech to a Republican Women's Group.

Johnson said the Discoverer II satellite launched April 13 and bearing the name of the "little mouse" had a "truly fantastic success." He added, "We now plan to launch Discoverer III, with a biomedical space traveler."

Johnson didn't specify mice as the space travelers, but informed sources said one or more were slated for the orbital trip. Johnson said this Discoverer III shot would come within a month, but other sources weren't quite so explicit.

The mice would be America's first try at putting living animals into orbit. The Army on Dec. 19 last year sent a monkey up about 90,000 feet. The nose cone of a Jupiter missile. An orbit was not attempted. The monkey, named the monkey, was lost in the Atlantic Ocean, after the 1,500-mile flight.

The Soviets launched their "Belka" into an orbit on Nov. 3, 1957.

Johnson claimed two important facts for Discoverer II. It was the first time a satellite had been positioned in flight (by means of jets of compressed air) so that it faced a certain way, he said, and it was the first time a capsule was ejected from a satellite and sent back to earth.

The capsule is said to have come down near Spitzbergen, north of Norway. A search is under way for it.

Of Discoverer III, Johnson said "biomedical data we will acquire will be very useful to the man-in-space program. Project Mercury." Seven men already have been selected to train to be sent into orbit and come back safely.

The man-to-moon prediction came from an official of another agency. Abraham Hyatt, told the House Space Committee Monday the United States will have this capability in six to eight years.

He said a new rocket engine—capable of 15 million pounds of thrust—is being developed. This tremendous engine could send a 150,000-pound satellite into orbit at an altitude of 300 miles, or a 43,000-pound payload in orbit around the moon, or a 4,300-pound payload to a landing on Mars, he said.

Hyatt said this new engine could be the basic power for Project Nova, which is to enable a man to "travel" to the moon, make a soft landing and return safely to earth. Such a trip would involve a 20,000-pound payload.

Johnson also outlined other coming satellite ventures. Those included: Project Mice, in early warning, missile detection, system using satellites. "Through this project we will develop greater insurance against surprise attack in ways impossible under our present early warning arrangement." No estimated date given.

Negotiators Seek to End Rubber Strike

CLEVELAND, Ohio (AP)—With a pattern already provided by Goodyear Tire & Rubber Co., negotiators worked today to reach an agreement ending strikes by 98,000 employees of U.S. Rubber, Firestone, and Goodrich.

U. S. Rubber, with 28,000 workers in the 12th day of a walkout, was negotiating with the United Rubber Workers in New York City. Firestone, with 18,000 production workers on strike, was bargaining here.

Goodrich, with 14,000 out, was meeting in Canton, Ohio.

Together, the walkouts add up to the biggest strike in U.R.W. history and are spread over 31 cities in 10 states.

In line with the practice of the union and the rubber industry's Big Four, there was no progress reported on the bargaining sessions. Unofficially, however, the word was that it may take the rest of this week to reach all agreements.

The Goodyear agreement covering 24,000 employees in 11 cities was signed here Monday. Goodyear was the only one of the Big Four not to be struck. Negotiators reached an agreement last Thursday, but drafting of contract language was not completed until today.

The Goodyear settlement subject to ratification provides for a five-year agreement to April 30, 1964, on insurance, pensions, and a two-year master contract expiring April 15, 1961, and including the Supplemental Unemployment Benefits plan.

The new pension formula for employees still working provides for \$2.40 a month for each year of service prior to Jan. 1, 1959, and \$2.90 a month for service thereafter. Previously, payments were \$1.50 a month with a 30-year limit on service. The 30-year limit has been lifted and the pension formula fixed at \$2.25 monthly for each year of service for employees retired since 1949.

Dr. Byron Z. of Harvard University authority on American labor was a U. S. naval air command intelligence officer during World War II.

Daylight Time Is Confusing to Everyone

NEW YORK (AP) — If you're one of those people who gets confused every year about Daylight Saving Time, don't be surprised — it is confusing.

Here's a little quiz that may help to straighten you out.

Q: What is Daylight Saving Time?

A: The custom of turning clocks ahead one hour in the spring and turning them back one hour in the fall to make the most of long summer days.

Q: When does it start?

A: In most places observing it, at 2 a. m. Sunday, April 26.

Q: How long does it last?

A: Most places start it the last Sunday in April and end it six months later, on the last Sunday in October, which this year is Oct. 25.

Q: How many states change to Daylight Saving Time?

A: All or part of 24 states and the District of Columbia, mainly in the East and Middle West.

Q: What is the shortest DST period in the country?

A: Butte, Mont., which normally declares it from June 1 to Sept. 6. Butte is the only city in Montana which adopts daylight time.

Q: What is the longest period?

A: Kentucky, from April 20 to Oct. 31. It is meaningless in such cities as Lexington and Frankfort, however, since they maintain daylight time all year.

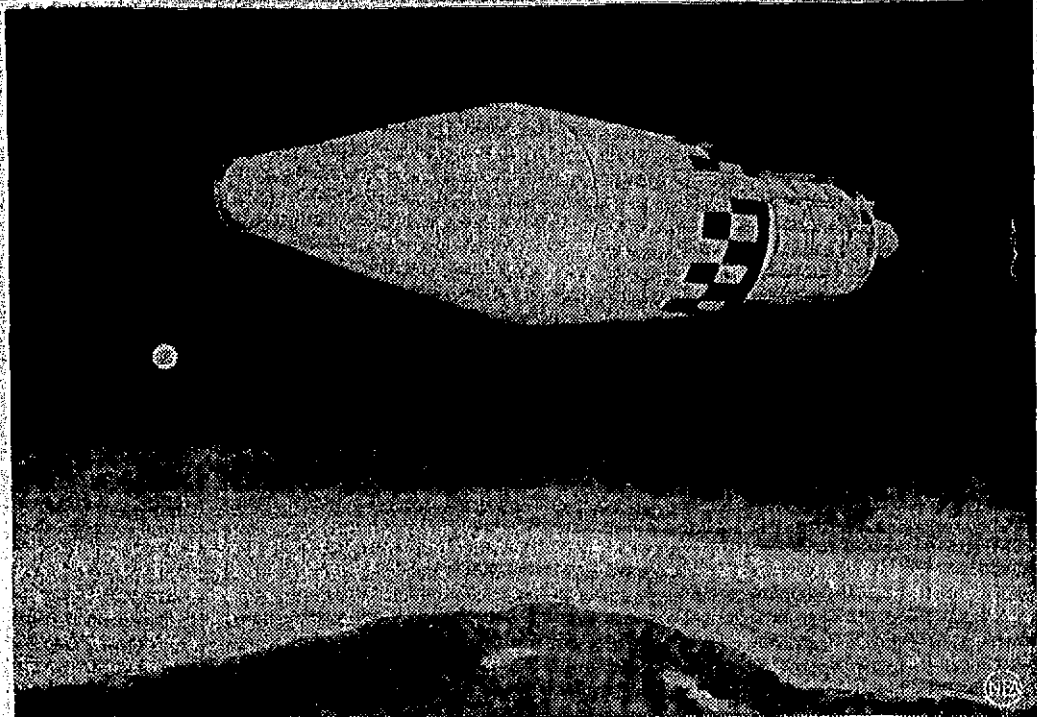

Q: Doesn't the mixed time situation create confusion?

A: It certainly does. Iowa, for instance, has no daylight time, but the border city of Davenport is expected to adopt it if Illinois cities across the Mississippi River do. Illinois is probably the champion of confusion. About 80 per cent of its people go on DST until Oct. 25, but rural areas are divided, some stopping at Sept. 27 and others staying on Standard Time. Some counties stay on Standard Time while the people in them operate on DST.

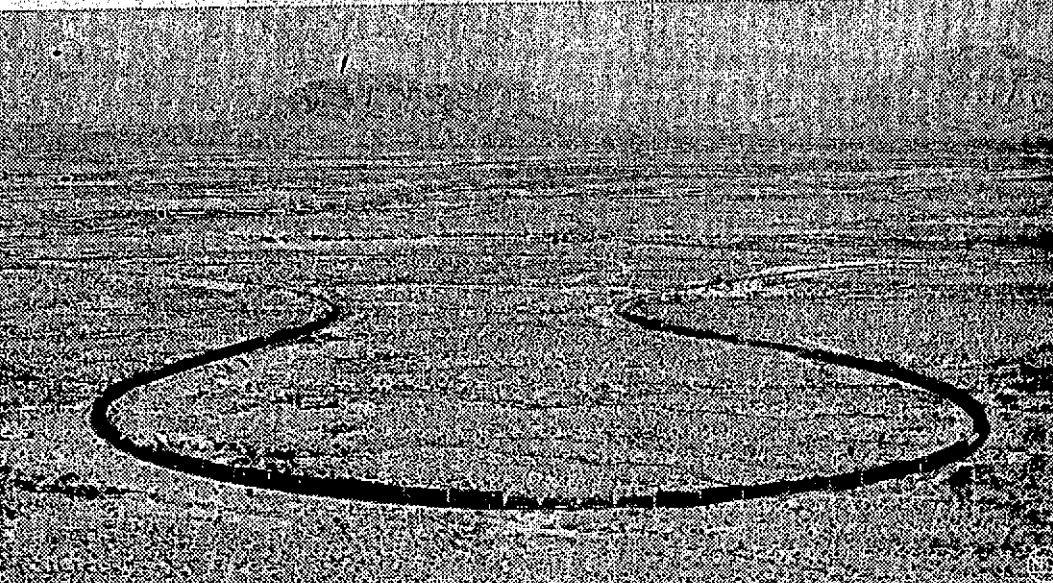

Q: Other states where uniformity is lacking include Maryland, Pennsylvania, New Mexico, Missouri, Ohio, West Virginia, Minnesota, Alabama and Virginia.

Q: How about the other states?

A: The following states have

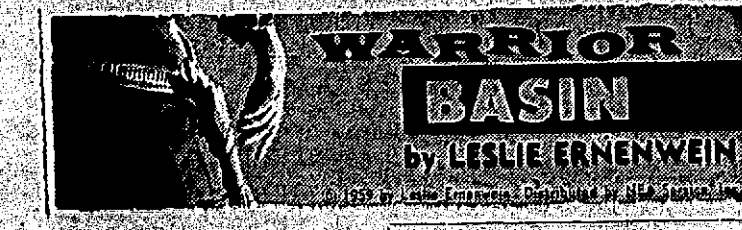

AROUND THE POLES—Designed to lead eventually to putting a man into space, the first shot in the Project "Discoverer" series from Vandenberg AFB, Calif., has been reported to be in its polar orbit. For a time it was feared lost. Drawing above shows how Discoverer I would appear from a vantage point hundreds of miles in space in its journey around the earth.

DESERT'S VANISHING IMPRINTS—Horseshoes are disappearing in the West these days. So with this famous horseshoe loop of the Southern Pacific 80 miles from El Paso, Tex. Slated for straightening, the meandering track was originally built that way to help freight trains up a 35-foot grade.

WHEN THE CROCUS AWOKE US—First sign of spring? The crocus? A robin? For the Great Lakes area, a sure sign of winter's end is the preparation of lake boats to resume sailing. The behemoth Benson Ford, a 34-year-old 612-foot ore carrier, rests in drydock in River Rouge, Mich., for its compulsory five-year inspection.

THE STORY Buchanan, 'Fyfe, editor of a small news paper at Junction, has been thrown in jail because he is siding with Jim Furlong, who is carrying on a one-man war against the powerful Empire ranch.

Eggleston said, "Jules swore out the warrant against Fyfe."

"What's his bond?" Link inquired.

"One thousand dollars—enough to keep him in jail until his trial comes up."

Link didn't like it. "Hasn't a newspaper publisher got a right to print news?"

"Yes—but no right to slander."

Daylight Saving Time from April 26 to Oct. 25: Maine, New Hampshire, Vermont, Rhode Island, Connecticut, New York, New Jersey and Delaware. Daylight Time ends Sept. 27 in California, Nevada, Utah and Wisconsin. In Massachusetts it runs until Oct. 18.

News Briefs

OSLO, Norway (AP)—A \$500 reward was offered today to any civilian finding the container ejected from the Discoverer II satellite. The capsule is believed to have fallen in the Spitsbergen islands north of Norway.

The U.S. Embassy announced the reward, offered by the Lockheed Aircraft Co., makers of the Discoverer.

The search for the little container in the extensive arctic wastes of Spitsbergen and the surrounding sea and ice got under way last Friday. Nine American rescue planes and two Norwegian helicopters are taking part.

FRANKFURT, Germany (AP)—Adolf Hitler was born 70 years ago today in Braunau, Austria, West German and Austrian newspapers and the German and Austrian people generally ignored the anniversary.

SYDNEY, Australia (AP)—Evangelist Billy Graham rested today at a vacation beach 25 miles north of Sydney after a strenuous opening week in his local campaign.

He will hold his next meeting at Sydney showground Tuesday night.

The opening week of Graham's four-week Sydney crusade has broken attendance records for similar missions in England and the United States, organizers said.

TOKYO, (AP) — Communist China says that 3,000 scientists have begun a vast project to water farmlands in northwest China by melting enormous glaciers.

Peiping radio said men and airplanes will spread black materials, mostly coal dust and burned grass and wood, on the snow-capped Killen Mountains in Kansu province.

The black will absorb the sun's rays, melting the snow and ice. Airplanes will bomb critical points on the glacier.

In two months, the scientists expect to obtain enough water to irrigate more than 50,000 acres of potential farmland.

KARACHI, Pakistan (AP) — President Ayub Khan today convened the first conference of the U.S. International Cooperation Administration held in Pakistan.

James Killen, director for the American aid program, said the five-day meeting is being held to familiarize ICA officials with Pakistan's government and to review methods of ensuring maximum use of U.S. aid.

Figures Ike Is Still President
TEXARKANA, Ark. (AP) — The baskets of flowers in the State National Bank were to congratulate new president James M. Robertson.

"What's going on?" a woman asked Vice President Basil Hoag. "We've got a new president."

Hoag said, "We have?" she exclaimed. "What happened to Mr. Eisenhower?"

do you mean by that?"

"I mean I've took all the jaw-bone I'm going to take for today," Link said. He went out.

(To Be Continued)

A LETTER HOME — Second Lt. Kang Suk Rhee of the Korean army writes a letter home from his barracks room at Fort Benning, Ga. Lieutenant Rhee, foster son of President and Mrs. Syngman Rhee, is attending the Infantry School's officer leadership course.

Prescott News

Cub Scout Den 8 Meets
Cub Scout Den 8 met on Wednesday afternoon in the home of Mrs. Bill Beck, leader, with Mrs. W. J. Oliver assisting.

Roll call was answered with a farm crop of Arkansas.

Bill Oliver served refreshments and the invocation was given by Jerry Beck. Den chief James Stewart directed several games and the cub Scouts studied insects of Arkansas and helpful insects. The meeting closed with the singing of "Ole MacDonald Had a Farm."

Others present were Gary Beck, Johnny Redfern, Billy Hines, and David Pry.

Brownie Troop 4 Has Meeting
The weekly meeting of Brownie Troop 4 met on Wednesday afternoon in the home of Mrs. C. B. Vandiver. The Brownies learned new songs and games.

Ann Vandiver was hostess and took the girls to the Dairy Queen for refreshments.

Present were guests Marcia and Kathy Reeves and members Barbara Wilson, Ellen Gordon, Beth Lambert, Betty Woodell, Kathy Bratton, Kay Ferguson and Ann Bolton.

Spiritual Life Group Meets
On Wednesday morning the Spiritual Life Group of the First Methodist Church met in the home of Mrs. L. C. Gatlin for the monthly meeting with 12 members present.

The meeting was opened with sentence prayer. Mrs. Jim Yancey presented the study on "Two or Three Together."

The closing prayer was voiced by Mrs. Gatlin.

Oscar Hart accompanied his sister, Mrs. Otto Holloway of Roston to Texarkana Thursday where she was admitted to St. Michael's Hospital.

Miss Louise Ingram has been the recent guest of Mr. and Mrs. Bill Yancey and Mrs. Floyd Ingram in Tyler, Texas.

Mrs. Brozie Haynie and Miss Gordon Danner were the guests Thursday of Mr. and Mrs. Lewis Simpson in El Dorado.

Mrs. Hansel Herring motored to Little Rock Thursday and was accompanied home by Mr. Herring who recently underwent knee surgery at Baptist Hospital.

Mrs. J. Bryon Ritchie attended an administrators drive in conference held in Hot Springs last week.

Dr. and Mrs. Charles Hesterly attended the 83rd annual conven-

Travelers Tell of Reds Taking Over in Iraq

BEIRUT, Lebanon (AP)—Travelers from Iraq daily bring out strikingly similar reports of a virtual Communist takeover of the country's major cities.

Communist tactics in Iraq are notably reminiscent of what happened in Peking, Shanghai and Nanking following the Communist takeover of China.

These travelers — Americans, Europeans, Iraqis — Lebanon — report almost identical conclusions. Communists have seized effective control of life in Baghdad, Basra, Mosul and other Iraqi cities. What is going on in smaller towns and the countryside is still not clear.

Some travelers claim Red penetration into government is 80 per cent. Others report Communist activities indicate it is only a matter of time before complete takeover.

As the Chinese Communists did 10 years ago, Iraqi Communist agitators are keeping the main cities in a constant state of turmoil, confusion and excitement.

Little work is being done anywhere. Parades, rallies, meetings and speeches follow one another in unbroken succession.

The bed of Crow Creek, which flows through Crowley's Ridge near Forrest City, at one time contained an estimated seven million cubic yards of oyster shells.

Friends of Miss Carrie Thorburn will regret to know she suffered a sprained ankle in a fall at her home.

Friends of Mrs. C. G. Danner will regret to know she is a patient in Cora Donnell Hospital.

TEST AGAINST THE REST SEE FOR YOURSELF WHICH VALUE'S BEST THE LARK BY STUDEBAKER

➤ Come in and drive The Lark—compare it with any other car for value. You'll find The Lark stands alone. ➤ **SIZE**—three feet shorter than conventional cars, yet room for six in spacious comfort. ➤ **SAVINGS**—The Lark costs less to buy, far less to operate—lowest of all insurance rates, far lower gas and maintenance bills. ➤ **ENGINEERING**—skilled Studebaker craftsmanship plus spirited "6" or super-powerful V-8 performance. ➤ **STYLING**—so fashion-right, it's approved by Harper's Bazaar. Wrap-around view of the road, Sapphire Enamel finish that needs no waxing, handsome interiors in practical vinyl. ➤ Small wonder Lark sales are way up (fastest rising sales curve in the industry).

The LARK's amazing gas economy was recently proved in the Mobilgas Economy Run when The LARK V-8 equipped with automatic transmission outscored all other V-8's by delivering 22.28 miles per gallon. The LARK "six" turned in even better mileage. The LARK is available as a 2 and 4-door sedan, station wagon and hardtop. Overdrive also optional on all models.

Discover what you'll save at YOUR STUDEBAKER DEALER'S

THIS WEEK at dealers' displaying this sign! Take a fun drive in The Lark and get this gift! Exclusive RCA-Victor record: 4 hit songs by Pat Suzuki, star of "Flower Drum Song."

PLUS a chance to WIN a \$250 RCA Stereophonic Console, your new dimension in sound. Nothing to buy... no obligations... no strings attached!

Not applicable where local laws prohibit.
